Kosovo Albanians to stage protests against UN plan

KosovoCompromise Staff

Fifteen movements and non-governmental organizations have announced a demonstration for Wednesday in Pristina against the six-point UN plan.

" We invite all citizens of Kosovo to join us an in a demonstration and oppose in a peaceful way the six points which affect the sovereignty and territorial integrity of Kosovo," reads the joint statement.

"The six points proposed by the UN and modified for Serbia , aim to divide Kosovo in two: 1/3 of the territory will be given to Serb parallel structures, which means effective control by Serbia. These points reduce Kosovo's institutional development by deploying Serb parallel institutions in the elements most important for the working of state sovereignty, especially in policing, courts and customs. This is unacceptable", the statement said.
