## **Kosovo Albanians to protest against Eulex deployment on UN basis**

KosovoCompromise Staff

Several Kosovo Albanian non-governmental organizations called for Tuesday a protest rally in Pristina against the deployment of Eulex in Kosovo under the United Nations six-point plan.

The protest, under a slogan “Against six points - for sovereignty,” is announced to take place on the day Eulex reaches its “initial operational capability”.

“The demonstrations are against (the UN) six points and against Eulex, particularly against the way the mission will be deployed, based on Resolution 1244,” said one of the protest organizers Aljban Boksi.

He also said that all those who try to convince the citizens of Kosovo that the mission will be deployed without a six-point plan will be “lying.”
